Cross the moor. After 300 m, turn right at the intersection.Along the wetland of the old pond of Poulbé. Follow the chemin des Oyats until the road. 4) Turn left then right passing the gantry. Then take the first path on the left which leads to Roche Sèche and Kerouriec beach. Cross the dune massif, an exceptional natural area that is part of the Grand Site of France Gâvres-Quiberon. Observe the vestiges of the Atlantic Wall dating from the Second World War: in addition to the bunkers, winter storms allow you to regularly discover other defense elements hitherto buried under the sand. In 2018, a Belgian door, a tetrahedron and a piece of rail were discovered on the beach of Kerminihy.
